

# Spring Report

## To our Mission Champions

From Sonya Rice, Executive Director

Isn't it exciting to think about an end to winter, spring approaching and new beginnings? It's always fun to see the baby calves leaping in the field and baby bunnies hopping through the grass this time of year. I am reminded of the new life that we celebrate every season as brave men and women choose to parent their children despite a culture that tells them life is disposable. **Transitioning to our new facility this spring - happening with your generosity joined with more than 700 PWC supporters' prayers and partnership - delights us with another new beginning in our family-building ministry!** Please note our new address and phone number listed above. **You'll have an opportunity to join us on site for our Life Rally – see details below!**

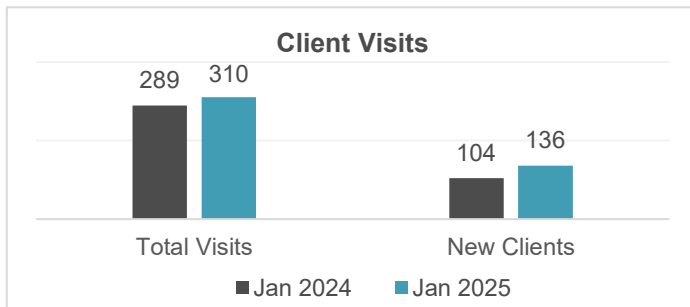

### Celebrating Adoption: You Make Family Connections Possible

“Do you refer for adoption?” is one of the most common questions from supporters. The answer is YES! We recently had the opportunity to celebrate a young mom who chose to place her baby for adoption. We walked with her through this difficult decision and acknowledged her choice by coming together with a special party for her. Our wraparound care for families extends well beyond the initial ultrasound!

### We Can Respond Thanks to You

While we have much to celebrate, we've also seen the return of abortion services in Missouri, with the “right” now enshrined in our state constitution. As we have shared previously, our key initiatives are to reach women first and

to be an agile organization ready to respond to both challenges and opportunities, both of which are more important than ever. As you can imagine, Missouri will become an abortion destination, and we anticipate more inquiries as women search for help. We've shared a comparison of January's client visits compared to 2024 and you can see the increased numbers. The new space is critical to meet the growing demand for our services.

### Your Giving is Leveraged with Grant Funding to Save and Change Lives

We were blessed recently to be awarded a “Clinic Makeover” grant from Save the Storks. Funds will be used to transform the new fatherhood and client care areas into comfortable and calming spaces where clients can feel peace as they connect with our team members. We are continually pursuing grants to fund special projects and supplement the investment of our donors.

### You Won't Want to Miss These Events

Our Annual Fatherhood Golf Tournament is scheduled for Staley Farms on August 18. More details coming soon!

**WE ARE MOVING OUR ANNUAL FUNDRAISER TO SPRING** and are excited for you to experience our new space during this special event starting at 4 pm on April 27. Be sure to put it on your calendar!

**Life Story**  
AN INTERACTIVE EXPERIENCE
